Ratio Rises to 1.61 on Amex; Volume Off

Short interest on the American Stock Exchange as of the April 15 settlement date increased to 7,055,779 shares from the 6,917,617 (adjusted) reported in mid-March.

The short interest ratio rose to 1.61 from 1.34 (adjusted). With calculations based on the trading dates from March 9 through April 7, the average daily trading volume fell to 4,371,318 shares from the 5,150,250 reported in the comparable month-earlier period.

As of April 15 a short position of 5,000 or more shares existed in 118 of the approximately 900 stock and warrants traded on the exchange, and some short position was shown in 520 issues. The following table lists such issues, showing their current position and average daily trading volume for the preceding month.
